## About Me

I am a fresh Computer Science graduate with a strong interest in UI/UX design, Graphics design, web development, and visual creativity. I enjoy drawing and illustrating, which often inspires my design work. I've worked on two Django-based websites and designed the UI/UX for three different software projects.

I'm always eager to learn and build meaningful digital experiences. My background in competitive debating further strengthens my communication skills.

---

## Education

• <b>University of Asia Pacific</b>	January 2022 - December 2025
B.Sc. in Computer Science and Engineering	<b>CGPA – 3.90</b>
• <b>Birshrestha Munshi Abdur Rouf Public College</b>	2020
Higher Secondary Certificate (Science)	GPA- 5.0
<b>BCSIR High School and College</b>	2018
Secondary School Certificate (Science)	GPA- 5.0

---

## Experience

### 1. UI/UX Design Intern

*Eutropia-IT Solution* | July 2025 – December 2025

- Assisted in designing user interfaces for web and mobile applications
- Created wireframes, mockups, and interactive prototypes using Figma
- Collaborated with developers and stakeholders to improve usability and visual consistency

### 2. UI/UX Designer

*Dhaka Nation (Startup)* | July 2025 – September 2025

- Designed full UI ,Wireframes and layouts for the startup's digital product
- Contributed to branding and visual design decisions
- Gained experience in user centered design workflows
- Worked closely with a small team of developers,founder and project manager

### 3. System Support Executive

*eChithi* | July 2025 – September 2025

- Provided system support and assisted users with technical issues
- Took workshops of university students on hardware components
- Developed problem solving and communication skills

---

## Technical Skills

**Tools & Platforms:** Figma, Adobe Illustrator, Canva

**Languages:** Python, Java, HTML, CSS, JavaScript, C, C++

**Frameworks:** Django, Bootstrap

**Version control:** Git, GitHub

**Databases:** SQL, Oracle

**Others:** Power point, MS Word, Excel

## Areas of Interest

- UI/UX Design,
- Responsive Design,
- Wireframing,
- Web Development,
- Graphic Design,
- Drawing and Illustration,
- Version Control,
- Project Planning and Documenting
- Research works

## Certifications & Training

- [UI/UX Design course \(Creative IT\)](#)
- [Web Development with HTML, CSS, JavaScript Course \(Coursera\)](#)
- [ICPC World Finals 2021 Volunteer](#)
- [National Girls Programming Contest 2022, Participant](#)
- [CDC Ideathon 2.0 ,2023, Participant](#)
- [UAP 10th Convocation 2024, Volunteer](#)

---

## Projects

### UI/UX Design Projects (*Figma – Frontend only*)

#### 1. Thakben Koi – Mobile UI/UX Design for Home Rental Platform

- Designed the user interface for a platform where users can list their homes for rent and others can search and rent them.
- Created wireframes, high-fidelity mockups, and interactive prototypes using **Figma**.
- Design Link: [Thakben Koi / Figma](#)

#### 2. EatSURE – Web UI/UX Design for a Restaurant Complaint Portal

- Designed the user interface of the website where users can officially complain about any restaurant
- Fully prototyped, implemented components and layouts
- Design Link: [EatSURE/ Figma](#)

#### 3. Shoukhin Haat – Mobile UI/UX Design of a E-commerce platform to Sell Traditional Products

- Fully prototyped UI optimized according to user pain points
- Design Link: [Shoukhin haat / Figma](#)

#### 4. TapeTennis – Product Website Design for a E-sports Mobile App

- Website design for an e-sports app to promote the app
- Design Link: [TapeTennis/Figma](#)

---

### Web Development Projects (*Django – Full Stack*)

#### 1. Shoukhin Haat - Online E-commerce Platform

- **Full-stack** e-commerce platform for selling local (deshi) products.
- Designed the frontend **using HTML, CSS, and JavaScript**.
- Developed the backend using **Django** with features like product management, user login, order system, and admin panel.
- Frontend design link - [Shoukhin haat / Figma](#)
- Github link- [Shoukhin haat / Github](#)

#### 2. EatSURE – Restaurant Complaint Portal

- **Full-stack Django** web application for reporting issues with cafes and restaurants.
- Implemented features like restaurant search, complaint submission with images, status updates (resolved, in process, fake), and admin moderation panel.
- **Implemented ML model** for complaint categorization.
- Designed a user-friendly interface using **HTML, CSS, JavaScript**
- Deployed Link: [EatSURE/ Deployed link](#)
